"YOURS IN CONTINUED FRIENDSHIP"

Tangent's New Rose

This rose will be a delightful addition to any garden or patio. It's handsome, light apricot blooms are borne in plentiful trusses, each stem carrying a cluster of up to seven blooms. The individual blooms are well filled with a scoop of petals in the 'cupped' form, they are long-lasting both in the garden and when cut for indoors. Repeat blooming is reliable, giving an easy to look after, trouble free plant.

Recommended use: combine in summer flower borders, among ornamental shrubs or as a single specimen in a large planter on a patio etc.

Class: Floribunda
Height: 90cm
Perfume: Light.

Flowering period: June to November,
Spacing: 80cm
